SUMMARY

Creative frontend engineer with a strong eye for design and hands-on experience building web, mobile, and cross-platform products. Proven ability to translate Figma designs into polished, performant interfaces across React, Next.js, Flutter, and React Native, from consumer apps on the Play Store to enterprise integrations. Passionate about UI craftsmanship, clean architecture, and shipping products that users love.

WORK EXPERIENCE

Frontend Developer | Plennix (Full-time) | *May 2025 – Present*

- Lead development of web and mobile applications using Next.js, React Native, and Flutter, delivering seamless cross-platform experiences backed by Firebase.
- Collaborate closely with product, design, and backend teams to integrate front-end interfaces with Odoo business workflows.
- Convert Figma designs into pixel-perfect, responsive UIs aligned with brand standards.
- Architect scalable front-end structures and optimize performance to support growing user bases.

Frontend Developer | Wirestorm Networks (Freelance) | *Aug 2024 – Present*

- Built and maintained scalable web applications in Next.js and React, delivering high-performing solutions for client business goals.
- Translated complex requirements into intuitive UX, improving engagement and satisfaction.
- Implemented performance optimization and SEO best practices, cutting load times and increasing visibility.

PROJECTS

Recur | Android App | *Google Play Store*

- A subscription tracker for Android built to help users monitor spending without the bloat.
- Designed, developed, and shipped independently, available on the Google Play Store.
